

# OVERVIEW

of ZPAS Group products

**ZPAS**  
GROUP

solutions for connections

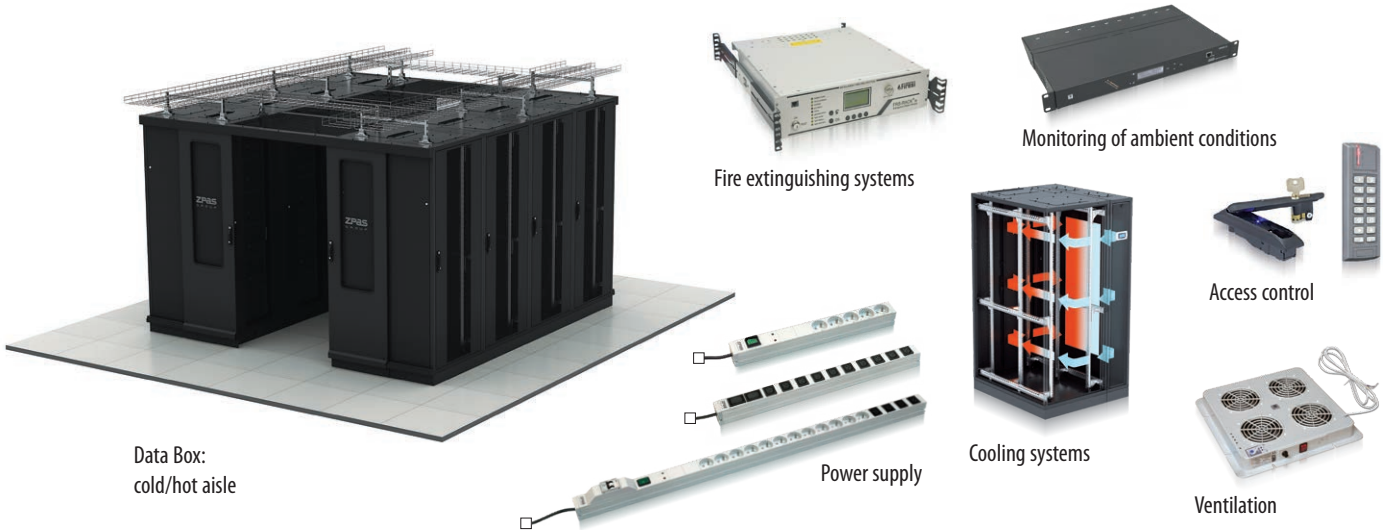

# ZPAS GROUP PRODUCTS

## DATA COMMUNICATION ENCLOSURES · DATA CENTER SOLUTIONS

Cabinets, wall boxes and open racks in 19" and 21" standard

Data Box:  
cold/hot aisle

Fire extinguishing systems

Monitoring of ambient conditions

Access control

Cooling systems

Power supply

Ventilation

## STRUCTURED CABLING

## STAINLESS STEEL PRODUCTS

Structured cabling systems, fibre optic distribution frames and accessories

All products listed in ZPAS catalogue are available in stainless steel version. We can also provide stainless steel products tailored to client's specification or project.

ZPAS AT ONE GLANCE

# ZPAS GROUP PRODUCTS

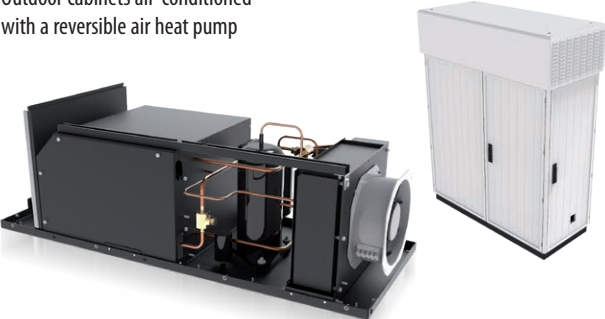

## OUTDOOR CABINETS

Enclosures recommended for applications in telecommunications, power engineering and other industries where equipment must be suitably protected against weather conditions.

## OUTDOOR CABINETS AIR-CONDITIONING

Outdoor cabinets air-conditioned with a reversible air heat pump

Unlike conventional air conditioning units, the reversible air heat pump can run in either cooling or heating mode. Thanks to this, it can maintain a set temperature and humidity in the cabinet all year round, while allowing lower energy consumption than when using an air conditioner or electric heaters.

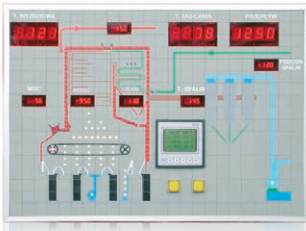

## CONTROL AND DISPATCH DESKS

Universal modular design desks and tailor made desks. Offered with mounted electrical equipment, assembled at customer's facility.

## MIMIC BOARDS

Displays representing graphical tracing of technological processes for waterworks, gasworks, power plants etc.

## MULTIMEDIA KIOSKS

Infokiosks with computer hardware and software

## DEPOSIT MACHINES

Machines for supervised storage, distribution, use and servicing of goods or tools
