**Zakład Produkcji Automatyki Sieciowej S.A.**

## About the company

The company **Zakład Produkcji Automatyki Sieciowej (ZPAS)** was founded in 1973 initially as the Experimental Department of the Power System Automation Institute of Wrocław. At the beginning of 1980s it became the part of the Research and Manufacturing Centre for Power System Automation. In 1990 the company achieved full independence and in 1992 was transformed into a private stock company. Experience got in 30 years history, and mainly during political changes which started in 1989, enable us to keep steady development of the company, extension of infrastructure and forming modern process lines.

Modern and high-tech equipment, well-educated and selected personnel determine the guarantee of high quality and flexibility of company's offer. ZPAS S.A. has got both the Quality Assurance System certificate ISO 9001:2000 and Environmental Management System certificate ISO 14001:1996.

The product line-up of ZPAS S.A. mainly refers to needs of relatively young IT branch. Our products are frequently important part of teletechnical protection of modern telecommunication, computing and power industry systems.

New technological solutions made by ZPAS S.A. created uniform and comprehensive product line-up. Due to these solutions, it was possible to join previously divided groups of products of computing and power industry branch.

### We offer the following product line-up and services:

- 19", 21" and 10" cabinets for data and telecommunication networks (in floor-standing and wall-mounted versions),
- outdoor cabinets,
- cabinets in EMC standard,
- structural cabling system PowerLink,
- fibre optic distribution frames in OptiTel and OptiLan series,
- power industry cabinets,
- mimic panels,
- dispatch and control desks,
- system of supervising climatic conditions ZPAS-Control M-Bus,
- products made of stainless and acid-proof steel,
- other products on customers' request.

Gateway to the plant

Administration Building

In 2002 we introduced brand new products: OptiTel - system of module fibre optic distribution frames, PowerLink-structuralcablingssystem, SZE2-newseries of power industry cabinets, SD and SJ - wall-mounted cabinets, KCS-1 - cassette of central signalling, ZPAS-Control M-Bus - system of supervising climatic conditions. All detailed information about the product line-up are on our website: <http://www.zpas.com>.

## About the company

Road to the lower part of the plant

View from the company's car park

Marketing Department Building

Electrical Plant Building

The plant is located on the former coal mine grounds RUDOLF (after 1945 coal plant BOLESŁAW) and the former steelworks BARBARA. In 1948 the buildings of steelworks became property of the Central Repair Shop for Coal Industry. From 1964 to 1973 this was a foundry belonging to Świdnica Wagons Factory.

Historic buildings from the beginning of the second half of 19th century of the former steelworks BARBARA (presently ZPAS's Mechanical Plant) are registered as historic monuments. All remodelling and development must conform to preservation service directives.

### TECHNICAL DATA

Kind of the element	Material sheet steel	Surface finishing
Cabinet's frame - top and bottom plate - posts	2.0 mm 2.5 mm	Standard cabinet is powder painted in <b>RAL 7035</b> (epoxide-polyester paint of coarse-grained structure, applied for internal conditions). On customer's request it is possible to use special paint with an increased resistance to atmosphere factors and using polyzinc base.
Doors	2.0 mm	
Shields	1.5 mm	
Roof	1.5 mm	
Plinth - corners - connectors	2.5 mm 1.25 mm	Zinc-coated
Mounting plate	3.0 mm	
Mounting bars	1.5 and 2.0 mm	

Protection degree according to PN-92/E-08106 / EN 60 529 / IEC 529

IP 64 for single-door cabinet, IP 54 for double-door cabinet

### DESCRIPTION OF SZE2 CONSTRUCTION

#### Welded framework of the cabinet

- Side frames of the framework have got cut-outs for assembling the system of mounting rails or mounting plate.
- In top and bottom plate of the framework there are openings for cable entries or fan units assembling. In standard the openings are covered with solid blind covers.

#### Front door, rear shield

- Cabinets 1000 and 1200 mm wide are equipped with two-wing door, cabinets 800 and 600 mm wide are equipped with one-wing door. Rear shield can be changed into rear door.
- Easy change of the direction of the door opening by turning the handle.

## SZE2 floor standing cabinets

The cabinet with the roof and flushed in side shields

The cabinet with the roof and external side shields

The cabinet with the roof, flushed in side shields and lifting eyes

Mounting manner of grounding and neutralisation/screening strip set

- Standard door are equipped with three-point, rod-latch lock with an insert for patent key and strengthening frame with openings for cable channels, bundles of cables etc.
- On customer's request it is possible to manufacture a door with a glass window and/or perforation.
- Maximum door opening angle is 120°.

### Two kinds of side shields

- Flushed in shields - kept within cabinet's framework dimensions.
- External shields - expending cabinet's width by 25 mm from each side; recommended for cabinets placed outside the buildings.

### Roof

- Is a part of supplementary accessories.
- Provides protection of fan units mounted in the top plate of the framework.
- Also recommended for cabinets placed outside the buildings.

### Lifting eyes

- Four lifting eyes are added as supplementary accessories. They are screwed to the cut-outs in the top plate of the framework.

### Base

- The cabinet should be set on the 100 mm or 200 mm plinth.
- It is allowable to set the cabinet directly on the cable duct. All details about dimensions of the cable duct should be agreed with ZPAS's technical department.

### Cast gasket

- Doors, shields and solid blind covers of the top plate have got cast gasket of polyurethane foam.

### Grounding, screening, neutralization

- Construction of each components of the cabinet enables to carry out grounding connections.
- Grounding cables, groundings strips, screening strips or neutralization strips are delivered as supplementary accessories.

### Manners of fastening appliances in the cabinet

- Mounting plate - directly fastened to the framework, no need to use additional intermediate elements.
- Mounting bars - enables to make configurations of any frame inside the cabinet (cut-outs on the bars are adapted both to the horizontal and vertical openings in the framework).
- Supporting bars in 19" spacing.
- 19" swing frame for cabinets 800 mm wide.

### Joining cabinets in rows

- The cabinets are adjusted to be joint in rows.
- Cabinets joining in rows can be equipped with partition.

## SIDE SHIELDS

**They are offered in two types:**

- 1) flushed in side shields - they do not cause the enlargement of cabinet's frame dimensions, in case of joining in rows they can be used as partitions.
- 2) external side shields - they cause the enlargement of the cabinet by 25 mm from each side.

All side shields are equipped with cast gasket made of polyurethane foam and stud-bolts for grounding cables mounting.

**Material:**

1.5 mm thick sheet steel powder painted in RAL 7035.

**Supply includes:**

2 side shields (flushed in or external) with fixing accessories for mounting into the cabinet.

For cabinet		Catalogue number	
height [mm]	depth [mm]	Flushed in side shields	External side shields

	500	1951-9-0-6	1951-7-0-14

**Package:** 2 pcs.

## ROOF

Each cabinet can be equipped with a roof in two widths:

- roof for cabinet with flushed in side shields (roof's width accordant with cabinet's frame width).
- roof for cabinet with external side shields (roof's width enlarged by 50 mm in comparison with cabinet's frame).

Roof's height with distance screws: 41.5 mm.

**Material:**

1.5 mm thick sheet steel powder painted in RAL 7035.

**Supply includes:**

Roof with 4 distance screws for mounting.

(Assembly screws M12 are delivered with the cabinet.)

## Supplementary accessories for SZE2 cabinets

### LIFTING EYES

They are screwed to the cut-outs in the top plate of the frame or (when the roof is used) to the distance screws.  
There are 4 lifting eyes needed to each cabinet.

Diameter of the lifting eye's opening: 30 mm  
Thread: M12

**Material:**

Zinc coated steel.

**Supply includes:**

Screw with eye: 1 pc.

Package	Catalogue number
1 pc.	0653.137.161

### PARTITION

For the cabinets joining in rows.  
It is assembled in exactly the same way as flushed in side shield.

**Material:**

1.5 mm thick Al-Zn coated sheet steel.

**Supply includes:**

Partition (1 pc.) with fixing accessories for mounting into the cabinet.

## TECHNICAL DATA

Type of element	Material sheet steel	Surface finish
Body	1.25 mm or 1.5 mm depending on cabinet's dimensions	Epoxide-polyester thick-texture powder paint in <b>RAL 7035</b> , intended for indoor usage
Door		
Blind cover	1.5 mm	Al-Zn coated
Mounting plate	2.0 mm	

\*) On customer's request it is possible to use facade paint with better resistance on atmosphere factors with optional usage of polyzinc base.

### Protection degree

**IP 65** in accordance with norm PN-92/E-08106 / EN 60 529 / IEC 529

## DESCRIPTION OF SWN CONSTRUCTION

### Body

- The body of SWN is tight welded sheet metal construction. Maximum enlargement of entrance opening enables using bigger mounting plate, what means more useful space.
- Multiplied bend of the trough protects from getting dust and water into the cabinet, even with the door open.
- In the bottom of the body there is opening for cable plate. Dimensions of the opening depend on dimensions of the cabinet.
- Inside the body there are self-tapping screws for mounting plate fixing.
- On the rear side of the body there are cut-outs for mounting the cabinet directly on the wall or by using lifting brackets.

## SWN wall-mounted cabinets

### Door

- Cabinets have got one-wing door.
- Depending on the door's height, there are used one or two locks without handle with shaped insert „doppelbart“ type:
  - cabinets up to 400 mm high - one lock in the middle;
  - cabinets from 500 to 1000 mm high - two locks.
- There are hinges fixed to the door, quantity depends on cabinet's height: from 300 to 600 mm - two hinges, from 800 to 1000 mm - three hinges.
- On the inside of the door there are cast gasket and grounding bolts.
- Easy change of direction of door open.
- Maximum door opening angle 120°.

### Mounting plate

- Fixed into the rear side of the body.
- In cabinets up to 600 mm height it is used flat mounting plate, in cabinets 800 and 1000 mm height it is used bent mounting plate in order to improve firmness.
- There are cut-outs in the mounting plate for grounding strip fixing.

### Blind cover - cable plate

- Fixed to the opening in the bottom plate by self-tapping screws.
- It has cast gasket and grounding bolt.
- On customer's request it is possible to make cable plate with cut-outs for gland seals.

### Grounding and screening

- Cabinet's door and blind cover have got threaded grounding bolts.
- Grounding strip, screening strip (for fixing on the mounting plate) and grounding cables can be delivered as supplementary accessories.

Blind cover fixed to the cabinet's bottom

## Construction of SWN cabinets

**Flat mounting plate**  
(for cabinets from  
300 to 600 mm high)

**Bent mounting plate**  
(for cabinets 800 and 1000  
mm high)

SWN WALL-MOUNTED CABINETS

## Supplementary accessories for SWN cabinets

### SCREENING STRIP

Fixed to the mounting plate by insulators (cut-outs for fixing screening strip into the mounting plate are made during assembly).  
With threaded openings M5 for fixing wires.

**Material:**

Copper strip 30 x 4 mm.

**Supply includes:**

Screening strip with 2 insulators and screws for fixing on the mounting plate.

SWN cabinet's width [mm]	Strip's length [mm]	Package	Catalogue number
200 - 400	130	1 pc.	2285-10-1-1
500 - 800	230	1 pc.	2285-10-1-2

### GROUNDING SET

Consists of grounding strip and 2 grounding cables.

**Grounding strip**

- Fixed to the mounting plate by distance pins (standard mounting plate has cut-outs for grounding strip fixing).
- With threaded openings M5 for fixing wires.

**Grounding cables**

- Insulated copper wires for joining removable elements of the cabinet with grounding strip or directly with cabinet's body.
- With contact eyes.

**Material:**

Zinc coated steel rail 30 x 4 x 170 mm.  
Copper cables, full section 6 mm<sup>2</sup>.

**Supply includes:**

Set: grounding strip 170 mm long with distance pins, washers and nuts for fixing to the mounting plate, 2 grounding cables 300 mm long, fixing accessories.

Package	Catalogue number
1 set.	2285-13-2

### SET OF HANGING BRACKETS FOR WALL MOUNTING

Hanging brackets are fixed to the openings in the rear side of the cabinet horizontally or vertically. Diameter of openings: 10 mm. Spacing between rear side of the cabinet and the wall: 20 mm.

1 set = 4 brackets is needed for mounting one cabinet on the wall.

**Material:**

2 mm thick Al-Zn coated sheet steel.

**Supply includes:**

Set: 4 hanging brackets with screws, nuts and washers for fixing into the rear shield.

Package	Catalogue number
1 set = 4 pcs.	2285-14-2
